

# Tree of life

## Charitable trust

### What we do

#### Medical care

we want to make sure they are healthy by providing medical check ups and providing symptomatic medication along with supplement medicine regularly.

#### Educational support

- we are providing school bag kits to all the children who are coming to our camp.
- we also supporting other children( HIV infected ) who are not part of our camps assailant at the time of school reopening.
- Educational support to children who are going to private school.

#### Counseling

Counseling helps HIV +ve individuals by:

- Addressing emotional struggles (shock, denial, anxiety, depression)
- Enhancing coping skills and resilience
- Promoting treatment adherence and healthy lifestyle choices
- Building social support and connections
- Reducing stigma and shame

#### Nutrition support

We are supporting nearly **62 families** every month (max regularly), occasionally another **40 families**. we give 7 different types of items in our grocery kits.

## Locations and number

- Hyderabad 30 children (27 families)
